**UPCOMING
GARDEN DAYS**

8 | 9 | 10
MAY 2020

Dear garden lovers and visitors
of the Garden Days of Beervelde,

Welcome to Lochristi, the Flower County.
During the last two centuries,
Lochristi has played an important role
in the world of horticulture.
Everyone remembers the Begonia Festival
and nowadays Lochristi continues
along its flowered path. Greenhouses
and flowers surround us everywhere.
At the City Council, we are very attached
to the Garden Days of Beervelde.
This event contributes to the reputation
of Lochristi and reflects the dynamism
of our flourishing municipality.

Yves Deswaene
- Mayor -

Marie-Claire Van Nieuwenhuyse
- Councillor for Culture & Tourism -

We hope you will
fully enjoy your visit:
let yourself be seduced
by the beauty of Belgian horticulture
(Ghent azalea, the bay leaf
from Flanders and the Belgian
Mums), taste the delicious local
products and enjoy the numerous
workshops, animations and musical
pearls. We wish you a wonderful
day!

Count Renaud de Kerchove

Maak van jouw moestuin een belevenistuin! Vraag ons vrijblijvend advies

Een moestuin aanleggen gaat gepaard met een aantal praktische regels die moeten gerespecteerd worden.

Het kweken in verhoogde bedden of bakken brengt een aantal voordelen met zich mee maar er zijn tal van regels na te leven, hier alvast een klein overzicht:

1. De nodige diepte voor een moestuin is +/-30 cm
2. Een moestuinbak hoger dan 30 cm moet een bodem bevatten tegen ongedierte
3. Plaats sowieso een worteldoek in jouw moestuin om de organische stoffen in de moestuin te houden
4. Vul jouw moestuin met premium substraat zo voorkom je onkruid
5. Een moestuinbak vult men met drie onderdelen, hydrokorrels voor water, compost als voedingsreserve en een klare moestuinpotgrond
6. Vergeet niet te bemesten, jouw planten hebben ook honger

*Je kan inschrijven op onze workshops
Kruiden en BBQ via de website.*

Vaste-plantenkwekerij Jan Spruyt - Van der Jeugd bvba onderscheidt zich de laatste jaren door in te zetten op duurzame en onderhoudsvriendelijke tuinconcepten zoals prairietuinen. Daar leveren wij ook de beplantingsplannen voor! Al onze tuinconcepten en extra maandelijks tips vind je op onze website **vasteplant.be**.

Wist je dat **prairietuinen** een hoge meerwaarde hebben t.o.v. traditionele tuinen? Ze zijn langlevend, onderhoudsvriendelijk en trekken o.a. vlinders en bijen aan. Er is geen extra bewatering nodig tijdens de zomer. De planten worden niet ziek, dus er zijn geen pesticiden nodig. Ze hebben een lage ecologische voetafdruk ... en dit helemaal op maat van jouw tuin!

Tip: door het gebruik van **bloembollen**, kan je je prairietuin laten bloeien van februari tot begin december! Onze **demotuinen** zijn steeds te bezichtigen op onze kwekerij en tijdens de Tuindagen in oktober.

**Bezoek ons
op stand 126!**

DD&B outdoor living begint stilaan een vaste waarde te worden op de tuindagen van Beervelde.

Wat 5 jaar geleden begon als een uit de hand gelopen hobby, heeft nu plaats gemaakt voor een modern en duurzaam bedrijf.

Aan het woord Sandra De Deckers, de bezielster van het project.

Wij maken kussens, meubels en afdekhoezen op maat en vraag van de klant.

Wij werken steeds met materialen van een uitzonderlijke kwaliteit, zo geven we op onze stoffen 5 jaar garantie tegen verkleuring, op onze mousse zelfs 7 jaar tegen kuilvorming en doorzitten.

WALKING in Beervelde Park

The Park is also accessible outside the Garden Days.

During the 'Garden Days', walking in the woods is highly recommended.

Indeed, we maintain the maze of footpaths for this very purpose. With this leaflet and map, you have everything you need to go and explore.

GROUP VISIT

A guided visit to the Park can be organized for groups of at least 15 people. Usually the visits are done by Count Renaud de Kerchove himself. The visit lasts about one hour and amounts to € 5 / pers and represents a healthy walk in a very, very large garden. Usually the tour starts at the Coach house, accessible via the Toverstraat (see plan). Do you wish to combine the group visit to the Park with a lunch or coffee buffet? Then we would like to welcome you in Feestzaal Breughel (see plan) where the tour can start and end.

BEERVELDE

1 to 8 = areas where the "Garden Days" take place every 2nd weekend of May and 2nd weekend of October

Schale

1. This estate stretches over **an area of 25 hectares** (62 acres) and has belonged to the same family since 1783. The layout, in landscape style, dates back to 1873, to the Romantic era. The basic idea is to bring, in a relatively small area, all of the elements together that one would want in an ideal landscape: romantic views; gently rolling meadows; the illusion of a clearing in a forest; winding paths; erratic water features; bridges; fairy tale buildings etc. The rule is: "Everything is manmade, but it must appear to be natural."
2. Here you can go straight ahead but it is much more fun (especially in dry weather) to **take the small path** on the right. The rhododendrons on the left of the track were displayed at the Ghent Flower Show in 1985.
3. **Remarkable scene** right of the path. This tree has keeled over and has given birth to a great number of offspring. A magical place.
4. On your left, under a thick layer of earth, you will find **an icehouse**. Years ago, before refrigerators existed, people cut ice from the pond and stored it here. Today it is an ideal place for some twenty bats to hibernate. Please do not disturb them. From this point you can either go straight or follow the path to (5).
5. Great example of a **'woodland garden'** with large, deciduous azaleas among very beautiful and large oak and beech trees. At the end of May this scene is at its best. The visitor should note that some of the oak are dead. We decided not to remove them but to let nature take its course. Pieces of wood might fall down. By continuing straight ahead into 2 or 4, this little risky section can be avoided.
6. Here you have the choice: either go straight, or turn left for a shorter walk with **a nice view of the pond** from a bridge (12). The path between (6) and (7) runs through a collection of Hamamelis (witch hazel), which produce seedlings. These large shrubs are at their most beautiful when they bloom in February. To be noted in particular, on the right, planted a little too close to the path, Hamamelis "Jelena", a witch hazel with orange flowers, named in honour of Jelena De Belder (Arboretum Kalmthout), an enthusiastic botanist who has been an inspiration to many people.

- 
7. You are now at **'the Keyzerlo'**. Here the walker can choose between the old path on the left and the new path on the right. A 'loo' or 'Lo' is a historical term for a clearing in a forest (cfr. Lo-Christi, but also Beverlo, Tongerlo, Waterloo ...). 'Keyzer' in honour of César De Keyzer and his wife Rosine Matthijs, horticulturalists from Lochristi. Next to the commercial range, they have put a lot of effort into recovering and increasing the oldest varieties of deciduous azaleas, a group known as the perennial 'Hardy Ghent' (short for winter hardy Ghent azaleas). All young plants you find here come from their nursery.
8. After a short walk in a shaded part of the forest where broad buckler ferns grow under the trees, we arrive at a clearing **surrounded by rhododendrons and large wild azaleas** (*Rhododendron luteum*, formerly *Azalea pontica*). Particularly nice in May.
9. From here you have a beautiful view of **the Coach house**, where the vehicles (horse-drawn carriages) of the family were kept. Sometimes people remark that there is no castle in Beervelde *, to which the Count replies that the estate may have no castle but it has the most beautiful garages in the world!
- * The castle was demolished in 1948. The current house was built on its foundations.*
10. **The pavilion.** Many people wonder what this building is for. The answer is: simply an eye catcher. Its only purpose is to be beautifully set within the landscape. From the terrace you have a wonderful view of the house. This house was built in 1948 on the site where the castle stood between 1873 and 1948.
11. Here one has the choice of returning to the real world or prolonging **the walk in paradise** with a stroll through the meadows, heading towards (12), (6) and a bit further (2), the starting point of your hike.
12. From the bridge in (12) one has **a nice view of the pond**. The water does not come from a river; it is groundwater, as a result, the level of the pond fluctuates a lot (more than 150 cm) between winter and summer. After the dry summer of 2018 there was hardly any water and no more fish in the pond. Shortly afterwards a large part of the pond was dredged and now it is once again populated with fish.
